PROFESSIONAL SUMMARY

B.Tech graduate in Electrical and Electronics Engineering from Sri Venkateswara University (2026), currently working as a Programmer Intern at Business Data AI. Skilled in React.js, JavaScript (ES6+), Python, SQL, PostgreSQL, and Bootstrap. Developed full-stack projects including a Women Safety Platform and a Student Management System. Quick learner with a strong interest in software development and building scalable, user-friendly applications.

WORK EXPERIENCE

Programmer Intern • Business Data AI

March 2026 – Present

- Developed and integrated spreadsheet functionalities in a React-based SaaS application using Excel Add-Ins and enhanced sheet-level features.
- Connected PostgreSQL databases with the application, enabling data retrieval, table joins, and hierarchical data representation within spreadsheets.
- Performed application testing and validation — gained hands-on experience in UI functionality, software workflows, and quality assurance.
- Collaborated with cross-functional teams through daily stand-ups and weekly meetings following Agile practices.
- Maintained codebase using Git and GitHub for version control and team collaboration throughout the development lifecycle.

Data Science Intern • Nyeras Edu-Tech And Innovations Pvt. Ltd.

Jul 2025 – Sep 2025

- Performed data analysis and EDA on real datasets using Python (Pandas, NumPy); visualised findings using Matplotlib and Seaborn.
- Earned completion certificate for outstanding performance.

PROJECTS

SheShield — Women Safety Platform

React.js, Node.js, Express.js, MongoDB, Socket.IO, Leaflet

- Developed a full-stack women safety platform with features including SOS alerts, emergency contact notifications, fake calls, incident reporting, and community story sharing.
- Integrated OpenStreetMap-based navigation and safe-route recommendations using Leaflet and location-based APIs.
- Implemented real-time community interactions and alerts using Socket.IO, along with secure user authentication and profile management.
- Built RESTful APIs and managed application data using MongoDB, Express.js, and Node.js. [GitHub: github.com/Latheesh560](https://github.com/Latheesh560)

Student Management System

HTML, Bootstrap, JavaScript, PostgreSQL

- Developed a Student Management System to manage student records, course information, and academic performance.
- Implemented CRUD operations, student search/filter functionality, and marks management using PostgreSQL and SQL queries.
- Designed a responsive UI using Bootstrap and built a normalized relational database schema with proper constraints and relationships.
- Developed dashboard features displaying student statistics, academic summaries, and performance metrics.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js

Databases: PostgreSQL, MongoDB

Tools: Git, GitHub, VS Code, Visual Studio

Other: Excel Add-In Development (VSTO)

EDUCATION

B.Tech – Electrical & Electronics Engineering

2022 – 2026

Sri Venkateswara University, Tirupati | GPA: 6.5/10

Intermediate (MPC)

2020 – 2022

Rayalaseema Junior College, Sri Kalahasti | GPA: 7.29/10

SSC – Class X

2016 – 2020

Z.P. High School, Anjuru | GPA: 9.8/10

CERTIFICATIONS & ACHIEVEMENTS

- Internship Completion — Data Science, Nyeras Edu-Tech And Innovations Pvt. Ltd. (2025)
- Internship Completion — Full Stack Java, SkillDzire & APSCHE, Approved by AICTE (Jun 2024)
- AI Foundations Associate — Oracle
- Excel Data Analysis — IBM (via edX)
- Certificate of Excellence, Student Ambassador — Alcheringa, IIT Guwahati
